Overview of product

This product provides users a platform to provide services to people nearby and earn money by doing so. Also, users can also avail the services provided by people in the neighbourhood.

Motivation

The motivation to develop this product comes from the need of people to be able to collaborate and provide each other day-to-day services and earn while doing so. Following are some examples of the types of day-to-day services we are targeting :

- College students living outside the college campuses often provide tutions, or maybe guitar lessons, or give computer classes to people (especially children) nearby.
- Housewives start their tiffin services and provide food to people (especially college students) nearby.
- College girls often provide Parlour Services to women in the neighbourhood.
- Many a times, volunteers are required in order to organize various Events such as Rallies or Promotions. These volunteers usually come from the places nearby.

The aim is to provide these people a platform where they can post the Advertisements of the services they can provide (such as tiffin service, guitar lessons) or the services desired (eg : Volunteers for an event).

Target Users

1. College Students
2. House Wives
3. Any other part time job seekers

How does it Work ?

- User creates an Account.
- User posts an Advertisement to **provide** or **request** for a service.
- Other Users can search Ads and **Contact the service provider** with the help of the Contact Number provided in Advertisement.
- Ads can be sorted on the basis of **location/ Category**.
- Categories are :-
 - * Tution services
 - * Tiffin Services
 - * Event Organization services
 - * Beauty Parlour services
